

It's October 28: Now what?

#HealthPromoChat

Tuesday October 28 from 3-4pm EDT

We have new municipal leaders. Now how can we effectively work with and engage them? Join in the #HealthPromoChat to discuss tools and approaches to identify how we can put our positions forward and build effective relationships.

- Q1** How do you determine elected officials' positions on the issues you are working on?
- Q2** What methods/tools do you use to build relationships & communicate with elected officials?
- Q3** What are good strategies for getting healthy policies on the political radar?
- Q4** If you were to give advice on working with elected officials, what advice would you give?
