

Fetal Alcohol Spectrum Disorder (FASD) Family/Caregiver Support Group Funding Application Guidelines

Funding Provided by the Government of Ontario

The Ministry of Children, Community and Social Services (MCCSS) is focused on improving outcomes for children, youth and families affected by Fetal Alcohol Spectrum Disorder (FASD).

Community-based FASD Family/Caregiver Support Groups bring together people who are providing care for a child, youth or adult with FASD or for those living with FASD. Groups may be facilitated by service providers, volunteers or both.

FASD Support Groups will provide networking opportunities and connections between parents and caregivers affected by FASD and provide them with an opportunity to come together for mentorship, information sharing and awareness activities.

Funding is being made available through an application process to existing and new FASD Support Groups to provide a forum for families and caregivers to:

- Support each other and share information on FASD;
- Build knowledge exchange across the province;
- Share effective/best practices between communities; and
- Support parent/caregiver mentorship and organize and mobilize local FASD initiatives to improve outcomes for individuals living with FASD.
